The Governov's generousness in saying .. that." he lind in this Colony, on the whole, a very accurate body of reporters" was seriously essened by this upfair and inaccur allusion to an incident which is n thoroughly well understood by community.

THE Hon. F. B. Johnson continued his

criticism on the Estimates for 1882 at

the last meeting of Council, and in so

doing made an effective speech. He

has a habit of accompanying his drastice

now-a-days rather jars upon the public

mind, partly perhaps because of the strange ring which genuine praise now makes in Council debates, and partly because the community (rightly or wrongly) are now slow to follow any one in a laudation of the present ret If it be borne in mind that much of the Estimates must have been drawn up by Dr. Stewart, when acting Colonial Secretary, and that the lines thon which this document is framed are of a somewhat stereotyped character. the credit which belongs to the compilers is not of an extraordinary nature. Certainly the "considerate and sympathising policy towards the Chinese adopted by Governor Hennessy is not generally credited with the existing prosperity of the Colony, although his arowed atterances that the trade of Hongkong must fall into the hands of Soda Water, Lemonade, Tonic Water, the Chinese, and his apparent satisfaction at this prospect, may have exercised a certain influence in that direction. The suggestion to raise a loan, by which the cost of large works of public utility could be paid by succeeding as well as present residents in the Colony, is one which meets the argument that a huge surplus is necessary for the payment of important schemes of construction. WHO'S RESPONSIBLE? To the Editor of the "CHINA MAIL." Sir.—A pretty lengthy period has now bassed since Mr Tonnochy was assaulted in the Gaol, but still no punishment, as far as I am aware, has been awarded to the criminal. The case was tried by Mr Wodehouse. Police Magistrate, in the Gaol, and he decided that the offence was too serious to be dealt with under the Gaol Ordinance, and ordered that the prisoner should be taken into the Police Court, and dealt with there. The Superintendent of the Gaol differed from this opinion, and maintained that the Gaol Ordinance was quite sufficient to meet the case. Some time afterwards Mr Wodehouse again sat on the case in the Gaol, but said that, after the fullest consideration, he could not alter his decision and since that time the public have heard nothing about the matter. This is a most peculiar way of administering justice, and those who are responsible for it are culpable in the extreme. Did not see anything of the last witness' junk at the time. As he was sailing along, he saw. coming out from So Chi Mun, almost on level with his (witness') junk, what appeared to be a pirate junk. His reason for calling it a pirate junk was this,—he had seen this junk lying alongside the shore, and close to it was a steam-launch which he considered to be a revenue cruiser. The steam launch was having some communication with the junk. Then saw the steamlaunch go away in the direction of Lung Shun Wan, and about an hour afterwards saw about a dozen men armed with muskets go on board the junk, which im- for some considerable time. are fixed for the 18th proximo, does not appear to bring along with it this year the customary excitement or the stir that has usually attended the occasion, There is an attempt at opposition between two candidates for the seat, but there is really very little in it. The old member, already twice returned, that is Mr Scarnichia, has for an opponent our present Colonial Surgeon-Dr Lucio da Silva. The iden of electing, as the high representative of such a Colony a gentleman who has spent the last twenty years in clinical practice in a place like this, will strike you as rather strange, I fancy. I wonder why Mr Guimaraes' friends who so warmly supported him last year, and who were near causing a comp d'etat, do not uphold him now. There can be no doubt that the present Ministry at Home is in favour of general suffrage, and everything will be done to have the franchise extended as liberally as possible. Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review:-" This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as some respects a continuation of Notes and Queries on China and Japan, the extinction. of which useful serial a year or two ago has been much regretted in Europe as well as in China. Theoresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated and who are severally represented in the first number of the Acciew by papers highly creditable to their respective authors. In a paper on Pr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice tha "Notes" and "Queries" are destined t find a place in its pages also. It is to be hoped that this opening for contribution on Chinese subjects may evoke a simila degree of literary zeal to that which was displayed during the lifetime of its prede cessor in the field, and that the China Review may receive the support necessary to insur its continuance.
